

**GÖDÖLLŐ CLIMATE CLUB**  Gödöllői  
klíma-klub

**11 December 2012**

**Minutes – English summary**

People present: 20 persons

This was our Christmas Club, so we prepared some mulled wine and there were even more delicacies than usually and the atmosphere was also really inspiringJ.

### *1. Summary of our 2012 activity*

We evaluated and recalled everything that we did during this year at the club meetings.

### *2. Screening - The Power of Community: How Cuba Survived Peak Oil*

Cuba underwent the loss of over half of its oil imports and survived, after the fall of the Soviet Union in 1990. Cuba's successes so that what they had done wouldn't be lost. We can learn more about Cuba's transition from large farms or plantations and reliance on fossil-fuel-based pesticides and fertilizers, to small organic farms and urban gardens. Cuba was undergoing a transition from a highly industrial society to a sustainable one. Cuba became a living example of how a country can successfully traverse what we all will have to deal with sooner or later, the

reduction and loss of finite fossil fuel resources. [You can watch the film here.](#)

The date of our next club meeting

**23rd January, 5 o'clock PM**

**We hope we will meet in 2013!**
